

## Renovation Royal Rangers Building (Kitchen and Bathroom)

With the ever growing Royal Rangers program, our vision is it to create a place where we can host afternoon, weekend, and holiday activities for the children in Bulembu.

Also, we are trusting that Royal Rangers from overseas will be able to come for their three Star Rides (short time missionary work) to help with the program. This is especially a big in Germany and is tied into their curriculum. We are hoping to build up deeper relationships to Outposts overseas.

Therefore a renovation would be a great benefit for the Royal Rangers in Bulembu.

Our plan is it to renovate the bathrooms (build two showers and fix the toilets), as well as create a kitchen. Bathrooms of course are necessary in any case.

Having a kitchen will open opportunities for cooking/baking classes and in the holidays we could offer Christmas baking, etc. for the community.

Therefore we need:
